CLPG
Classic Labels Packaging Group

Letter from the President and Founder

Dear Valued Partners and Customers,

At CLPG, we proudly build upon a 40-year legacy established by Classic Labels, a trusted manufacturer of specialty labels for major corporations. Since 2019, we have expanded our expertise beyond labels to include the manufacturing and production of specialty cartons, inserts, and comprehensive kitting and warehousing services.

Our commitment to innovation fuels our ability to deliver cutting-edge packaging solutions tailored to meet the evolving needs of our customers across diverse industries—including personal care, beauty, pharmaceutical, natural health, home care, food, and medical sectors. With a strong core infrastructure and an integrated supply chain, we ensure premium product quality while remaining agile and responsive.

Innovation remains at the heart of everything we do. From the development of new products to advancements in manufacturing, design, and packaging, we approach every project with a forward-thinking mindset. Our turn-key solutions seamlessly connect ideation through to manufacturing and packaging, enabling us to support our customers' goals every step of the way.

Sustainability, performance, and visual impact are key priorities in our manufacturing processes, encompassing labels, inserts, cartons, and flexible packaging. Our partnership with one of the nation's leading contract packaging companies allows us to deliver exceptional kitting, assembly, and warehousing services. Additionally, our design team works to optimize costs while enhancing the image and value of your products.

Our vision is simple: to be the best in everything we do. We look forward to continuing this journey together, pushing the boundaries of innovation and excellence.

Thank you for your trust and partnership.

Sincerely,

Steven J Ayala

President and Founder
